

Foam-B-Gone™ will remove foam from water within seconds of application. Foam is usually caused by excessive organics present in pond water. Protein foam can be harmful and should be removed quickly.

Foam-B-Gone™ is safe for use with fish, plants, birds or domestic animals that drink from the pond.

Application Rates

1 fl oz / 30 mL	Treats up to 1,000 Gallons
2 fl oz / 60 mL	Treats up to 2,000 Gallons
4 fl oz / 120 mL	Treats up to 4,000 Gallons
8 fl oz / 240 mL	Treats up to 8,000 Gallons

SHAKE WELL BEFORE USE

POND SIZE CALCULATION: L x W x Avg. Depth x 7.5 = # of Gallons

Routine Application Rate: Apply Foam-B-Gone™ as needed.

Persistent Problem Application Rate: For persistent and heavy foaming problems apply Foam-B-Gone™ as needed.

For Best Results: Since foaming is usually an indicator of heavy organic loads it is best to apply a strong bacteria and enzyme supplement such as our ClarityMax™ to remove unwanted organics.

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in loss or injury to aquatic life. CrystalClear®, Inc. is not responsible for any loss of aquatic life.
