

# Nature's Choice

## Barley Straw Pellets

- Cleans & Polishes Pond Water Naturally
- Fast-Acting, Easy to Apply
- Steady Release for Long-Term Clarity
- Includes (1) Application Mesh Bag
- Safe for All Aquatic Life

Treats 5,000 Gallons for up to 3 months

Net Contents:  
5 lbs / 2.26 kg

**Crystal  
Clear**®

Nature's Choice™ utilizes barley degradation technology to help manage water clarity problems all year long. When placed in an area of steady water flow Nature's Choice™ will slowly degrade and emit a natural extract that cleans and polishes pond water naturally. Nature's Choice™ is safe for use with fish, plants, birds or domestic animals that drink from the pond.

#### Application Rates

½ lb / 226 g	Treats 500 Gallons
1 lb / 453 g	Treats 1,000 Gallons
2 lb / 907 g	Treats 2,000 Gallons

**POND SIZE CALCULATION:** L x W x Avg. Depth  
x 7.5 = # of Gallons

**Routine Application Rate:** Simply fill the included application mesh bag with the corresponding application rate and place bag in the pond in an area of water movement. Replace barley straw pellets every 3 months.

**Persistent Problem Application Rate:** Do not apply Nature's Choice™ at any other rate than the rate prescribed above.

**For Best Results:** Place application mesh bag in an area where there is water movement, around a waterfall, stream, spitter, etc. This will facilitate a gradual degradation of the barley and allow more barley extract to be released into the pond system.

**Product Notices:** Pond may become cloudy after application, this is normal. Cloudiness should clear within 24-48 hours after application.

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in loss or injury to aquatic life. CrystalClear®, Inc. is not responsible for any loss of aquatic life.

**KEEP OUT OF REACH OF CHILDREN**  
**STORE AT ROOM TEMPERATURE**  
**SHELF LIFE: 3 YEARS**
