- Easy installation and maintenance
- 1-year guarantee on manufacturing faults
- Earthed
- Can be used for several applications
- Submersible

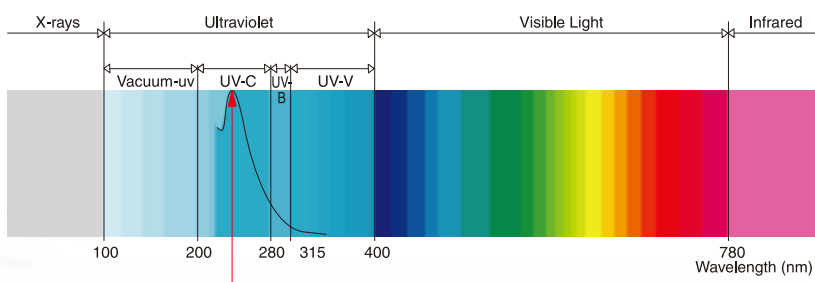

STRUCTURE:

Model	16W	25W	40W	75W	150W
Lamp T5	16 Watt	25 Watt	40 Watt	75 Watt	75 Watt x 2
Lamp Interval	9000 hour				
Voltage	110-120V or 220-240V / 50Hz or 60Hz				
Max. Suggested Pond size	2,200 Gal 8,330L	3,500 Gal 13,250L	5,500 Gal 20,820L	10,500 Gal 39,750L	20,500 Gal 77,600L
Dimension: L1 (in/mm)	13.6 / 345	22.6 / 573	34.3 / 870	34.3 / 870	34.3 / 870
Dimension: L2 (in/mm)	15.6 / 395	24.5 / 624	36.2 / 920	36.2 / 920	36.2 / 920

WORKING PRINCIPLE:

- Effective curve for micro-organism inactivation
- UVC output 254 nm for maximum disinfection of algae, bacteria, viruses etc.
